## BAKERS TABLES

MODEL 3B

QUEST BAKERS TABLES incorporate more utility features than any other comparable table. The 1 1/4" laminated maple top and curb are of first quality, with overshelf being optional in plywood, hardwood or stainless steel. The chassis, bins and drawers, are constructed of heavy gauge materials, strongly reinforced with rustproof steel. The new functional design is easy to clean and keep sanitary. Standard tables have bins and drawers of aluminum; chassis of painted galvanized steel; deluxe units are stainless steel throughout. Some of the many advantages to be obtained in a QUEST BAKERS TABLE are:

1. Large capacity bins (approximately 140 lbs.) with rounded bottoms for easy cleaning.
2. Reinforced bin rims will withstand opening and closing when loaded.
3. Bins are balance mounted on heavy gauge rockers, supported by 1 1/4" pipe, to permit easier opening and closing when loaded.
4. Bins are easily removed for cleaning, and have anti-splash flanges.
5. One piece dust and rodent guard at back of bins.
6. All tables are equipped with adjustable sanitary bullet feet, with concealed thread.
7. Drawers are large capacity and mounted on roller slides.

Optional features include mobile bins, spice rack with combination hand pull and name plate, and special sizes.

| MODEL | TYPE              | LENGTH | WIDTH | HEIGHT | SHIPPING WEIGHT |                 |
|-------|-------------------|--------|-------|--------|-----------------|-----------------|
|       |                   |        |       |        | Aluminum        | Stainless Steel |
| 2B    | 2 bins, 3 drawers | 60     | 30    | 34     | 375             | 430             |
| 3B    | 3 bins, 3 drawers | 78     | 30    | 34     | 470             | 555             |
| 4B    | 4 bins, 3 drawers | 96     | 30    | 34     | 560             | 660             |
